

Requirement Gathering Document

Project Title: *Impact of Online and Offline Education on Student Performance and Engagement*

1. Objectives

- Assess student preferences, performance, and engagement in online vs. offline education.
- Identify actionable insights to optimize educational strategies for better engagement and outcomes.

2. Stakeholder Requirements

Stakeholder	Requirement	Priority
Priority	Provide honest feedback through surveys about educational experiences.	High
Professor Pratik Bedi	Clear, actionable insights from data analysis and reports.	High
Project Team	Access to tools, resources, and clear scope to execute tasks.	Medium
External Reviewers	Comprehensive final report for evaluation.	Medium

3. Functional Requirements

- Design and deploy surveys targeting both online and offline students.
- Collect and validate data efficiently using Google Forms and QR codes.
- Perform data analysis using Python and Tableau for visualization.
- Generate insights and actionable recommendations based on survey results.

4. Non-Functional Requirements

- Ensure survey tools comply with privacy regulations (FERPA, GDPR).
- Deliver results within the project's timeline (September 13 – November 19, 2024).
- Maintain data accuracy and consistency throughout the analysis process.

5. Assumptions

- Students will actively participate in the surveys.
- Tools such as Google Forms and Tableau will remain accessible throughout.
- Timely feedback and approvals will be provided by stakeholders.

6. Constraints

- Time:** Must adhere to a strict deadline (November 19, 2024).
- Budget:** Limited to \$13,200 for the entire project.
- Resources:** Dependence on free or low-cost tools for analysis and visualization.
